

AFB SB MS

It is a bench dispenser for easy use of double-sided tapes or mono-adhesive tapes with a protective liner (ex. aluminium tapes) up to 250 mm of external diameter. It is designed for industrial use, where large quantities of tapes are used and efficiency is the main request. The dispenser removes the liner and rewinds it on a spool, giving the peeled off tape ready to use. It permits saving a lot of time when using double-sided tapes. The scissor blade permits cutting very hard technical tape too.

- ✓ The strong body structure is made of sheet steel (thickness 4 mm). It is coated by epoxy-polyester powder paint.
- ✓ The core holder and the spool for the liner are provided with adjustable brakes.
- ✓ It takes tape up to 50 mm (2") of width, 250 mm of external diameter on 76 mm (3") cores.
- ✓ The scissor blades made of MnVCr steel are hardened, completely sharpened and finished by grinding machines. The high quality of the steel used and the care taken in the process of production ensure excellent performances. It permits cutting every kind of tape (PP, PVC, aluminium, cloth, fibre reinforced tapes, VHB).
- ✓ It is provided with a sliding arm that permits cutting pieces of tape of a pre-set length. The maximum length is 500 mm.
