

# AFB TB MS

It is a bench dispenser for easy use of double-sided tapes or single-sided adhesive tapes with a protective liner (ex. aluminium tapes) up to 250mm of external diameter. It is designed for industrial use, where large quantities of tapes are used and efficiency is the main request. The dispenser removes the liner and rewinds it on a spool, giving the peeled off tape ready to use. It permits saving a lot of time.

- ✓ Strong body structure, made of sheet steel (thickness 4 mm). It is coated by epoxy-polyester powder paint.
- ✓ The toothed blade is made of hard steel. The special process of production gives sharp and strong teeth for an efficient cut of the tape. The blade is easily replaceable.
- ✓ The core holder and the spool for the liner are provided with adjustable brakes.
- ✓ They take tape up to 50 or 100 mm in width, 250 mm of external diameter on 76 mm (3") cores. They are suitable for double-sided tapes with embossed PVC or silicon paper liner.
- ✓ It is provided with a sliding arm that permits cutting pieces of tape of a pre-set length. The maximum length is 500 mm.

## *Technical characteristics*

Code	Description	Max tape width mm	Max Ø tape mm	Ø core-holder "	Net weight Kg	Pcs per carton
