

DSH mono

Hand dispensers for easy use of single sided adhesive tapes sold with protective liner . (Ex aluminum tapes)
The dispenser removes the liner and rewinds it on a spool, giving the peeled off tape ready to stick. It permits saving a lot of time when using tapes provided of protective liner.

- ✓ Strong body structure, made of sheet steel, strengthened by deep ribs. It is coated by epoxy-polyester powder paint.
- ✓ The toothed blade is made of hard steel. The special process of production gives sharp and strong teeth for an efficient cut of the adhesive tape.
- ✓ The core holder and the spool for the liner is provided with adjustable brakes.
- ✓ The applying roller is covered by soft anti-adhesive rubber.
- ✓ The anatomic handle is made of ABS resin.
- ✓ They take tapes up to 140 mm of external diameter on 76 mm (3") cores.
- ✓ A tape locator plate keeps the tape in position.
